Designed for light piston, fixed-wing aircraft, GFC 500 is now available for a growing list of aircraft models Leverages certificated flight instruments such as the G5 1 and GI 275 1 for attitude reference, and optionally flight displays such as the G3X Touch 2 or G500 TXi 2 for display of autopilot modes and flight director cues.

GFC™ 500 I Digital Autopilot for General Aviation Aircraft

Review: Carenado - A72-500 Series. The A72-500 Series is just the type of aircraft that Carenado is well known for, and a perfect regional turboprop for flightsim use. Reviewer Alex Dickinson really likes the model and enjoys flying it, though it's not quite perfect. It's an interesting plane to fly and features an excellent sound package, lots of liveries and other details.

FlightSim.Com - Review: Carenado - A72-500 Series

Yes, the Whelen Orion 650 series is FAA TSO approved for installation in certified aircraft. Q: Does the Orion 650 require a tail position light? Per Whelen, the Orion 650 does not require the aircraft to have a tail light, but can if they choose.
