\_A Shot of Faith To The Head\_: Bad Title, Great Book: Conclusion. As Mitch Stokes reasoned in his book, there are three evidential reasons for why belief in God is rational: The universe is rational, and we are rationally able to comprehend and communicate it's rationality, which reflects a rational being, a perfect form that created the physical world to be rational.

Secular, skeptical, disillusioned. These are the traits that mark our age—encouraged by outspoken atheists who insist that faith is naïve and belief is dangerous. But what if the atheists are the irrational ones? Can their beliefs withstand the rigorous examination that they demand from others? In A Shot of Faith of Faith to the Head, Mitch Stokes, Senior Fellow of Philosophy at New Saint Andrews College, dismantles the claims of skeptics and atheists, while constructing a simple yet solid case for Christian belief. This profound yet accessible book proves the rationality, consistency, and reliability of the Christian approach to science and life. If you have ever doubted that your beliefs can stand up to scrutiny—if you've ever doubted your beliefs—this book dissolves the questions. For atheists, it is a wake-up call. For Christians, it's A Shot of Faith to the Head. Endorsements: "A Shot of Faith to the Head is much more than a defense of Christianity; it takes the offensive against the secularist thinking that enamors so many in the West. With the thoroughness of a scholar and the confidence of experience, Mitch Stokes demonstrates the intellectually dubious nature of the so-called "New Atheism" and provides Christians with a much needed handbook for the questions they will surely face once they are outside of the safe confines of their Christian communities. I highly recommend it." —Larry Taunton, founder of the Fixed Point Foundation and author of The Grace Effect "A fine book: lively, clear, accessible, but also deep, and deeply competent." —Alvin Plantinga, Emeritus Professor of Philosophy at the University of Notre Dame, author of Where the Conflict Really Lies: Science, Religion, and Naturalism, Oxford University Press "The Bible identifies Jesus as the Word and as the Light, available therefore to the mind as well as the heart. Of all religions, Christianity most invites one to think as well as to believe, and in this troubled time that invitation is still more urgent to take up. Here is a book by a skilled thinker, showing how better to think about faith. It is a worthy task, ably achieved." —Larry P. Arnn, PhD, president, Hillsdale College "This book is what snarky atheists have coming to them for their dismissive claims and unfounded arrogance. Written not to convince atheists but to help Christians defend themselves and the Christian faith, A Shot of Faith to the Head takes the best tools of top-notch apologetics and philosophy and puts them in the hands of every believer. Even better, it's easy and fun to read, winsome, witty, filled with sharp thinking, and well-researched. As a professor and pastor, I'll be assigning this book in my apologetics courses and would recommend it to every Christian. It displays strategic answers to questions and objections every Christian has encountered." —Justin Holcomb, pastor, Mars Hill Church; executive director of the Resurgence; adjunct professor of theology, Reformed Theological Seminary

He argues that the reasonableness of faith depends not only on beliefs about the world but also on beliefs about oneself (for instance about what one wants, about one's hopes and fears) and on what one is willing to trust. Helm goes on to look at the relations between belief and trust, and between faith and virtue, and concludes with an exploration of one particular type of belief about oneself, the belief that one is oneself a believer. This is a book for anyone interested in the basis of religious faith."--BOOK JACKET.

This is book to give nursing students and new nurses motivation to keep going. If this career is for you, it will be. It also tells my journey from being interested in being a nurse to becoming a nurse despite being confronted with many obstacles.

STRAIGHT FROM HOLLYWOOD comes a dynamic business model for building a thriving career without compromising your faith. DeVon Franklin, vice president of production for Columbia Pictures, shares how being bold about his Christian faith while being driven and ambitious has actually helped him to excel in a high-profile, fast-paced, competitive industry. You are the movie. Produced by Faith parallels each step of the Hollywood filmmaking process with the faith-making process God uses to turn your career into a success. You will discover that it is possible to be both wildly successful and completely committed to God—and that you will be even more successful when you place your faith at the center of your career. You can unleash the power of your faith as your greatest professional advantage and use the compass of God's Word to guide you to your true passion and purpose in life. In this informative, inspiring book, DeVon reveals the secrets to maintaining your faith while advancing in your career. Here he shows you: □ How to discover The Big Idea for your life □ How to take your career to the next level □ How to recognize the signs God sends you that indicate when it's time to move in a new direction □ How to stand firm on your Christian principles without compromise □ How to work with people who don't understand your beliefs □ How to choose a profession, industry, or company that is in tune with your purpose DeVon says, "I know from my own experiences that if you will put your career in God's hands and trust him, you can't account for all the ways he will bless you. When you step out in faith, he will open doors and bring you opportunities that will surpass even your wildest expectations. . . . If I have learned anything, it's this: to get where you want to go, you first have to become the person God wants you to be."

"The greatest authors of atheism did more to push me toward belief in God than any Christian apologist writer." --Timothy Morgan. After a decade of major disappointments, Timothy Morgan was ready to reject God. Atheism offered an escape--an opportunity to dismiss God permanently. But as Morgan delved into the thinking of great atheists past and present, he was stunned. In book after book, he found their reasons for rejecting God to be intellectually unfulfilling. In Thank God for Atheists he candidly shares his journey by letting atheists speak for themselves, examining their logic to see whether it holds up or not. Along the way, deals with these key questions: What are the key elements of the atheist worldview? Who are the leading modern-day atheists, and what are they saying? How can you effectively respond to atheism? You'll find this a personal and thoughtful book on why the evidence for God is much more compelling than the evidence against Him.

The issue of faith, what it is and how it works, is not only a hot topic, but is of great importance in this day and age. Many claim that true faith is a means to an end, and that end usually has to do with greater health and wealth. It is true one may have great faith, money in the bank and perfect health. On the other hand one may suffer and be poor by the world's standards, yet still have great faith and be rich in God's economy. True faith is about a deepening relationship with God. In these pages the author looks at four men of faith in the Old Testament, traces their walk of faith and shows how modern man can expect the same dynamic walk. They went through great trials, suffering pain and setbacks but still held onto God and His plan for their lives. God has a great plan for our lives as well, and we can walk out that plan by applying the same faith. As you read you will become familiar with these four figures. They heard from God and what they heard was tested and proved. They all came out on top because they held on during the storms of life. If your faith has been tested in any way, this book is for you. It will encourage and enlighten you as you do your best in this life to "walk by faith and not by sight."

"Those who tell stories rule society." Plato So who today are our principal storytellers? Not philosophers, but filmmakers. For those who know both the enormous entertainment potential and the culture-shaping power of film, this book will stir mind and imagination. For great stories freight world-sized ideas, ideas worthy of contemplation and conversation. Great cinema inspires wonder. But another philosopher, Aristotle, reminds us that wonder is the true source of philosophy. So perhaps Plato or Aristotle might have a shot at ruling society, even today--if they took an interest in film. These fourteen essays consider classic and current films together with several major philosophical themes, all within the context of Christian faith: (1) the human condition, (2) the human mind and the nature of knowing, (3) the moral life, and (4) faith and religion. Citizen Kane, Big Fish and Pretty Woman contribute to an in-depth consideration of the human condition. The Truman Show, The Matrix, Being John Malkovich and It's a Wonderful Life, among others, illuminate reflection on the human mind and the nature of knowing. Looking at the moral life, contributors interact with such notable films as Pleasantville, Bowling for Columbine, Mystic River and The Silence of the Lambs. The final section pursues the theme of faith and religion traced through a number of Hong Kong martial arts films. Contact, 2001: A Space Odyssey and U2's music documentary Rattle and Hum. A veritable film festival for all those who want to nurture the wonder of philosophical inquiry and the love of Christian theology through an engagement with the big ideas on the big screen.

Two-term governor of Tennessee Bill Haslam reveals how faith--too often divisive and contentious--can be a redemptive and unifying presence in the public square. As a former mayor and governor, Bill Haslam has long been at the center of politics and policy on local, state, and federal levels. And he has consistently been guided by his faith, which influenced his actions on issues ranging from capital punishment to pardons, health care to abortion, welfare to free college tuition. Yet the place of faith in public life has been hotly debated since our nation's founding, and the relationship of church and state remains contentious to this day--and for good reason. Too often, Bill Haslam argues, Christians end up shaping their faith to fit their politics rather than forming their politics to their faith. They seem to forget their calling is to be used by God in service of others rather than to use God to reach their own desires and ends. Faithful Presence calls for a different way. Drawing upon his years of public service, Haslam casts a remarkable vision for the redemptive role of faith in politics while examining some of the most complex issues of our time, including: partisanship in our divided era; the most essential character trait for a public servant; how we cannot escape "legislating morality"; the answer to perpetual outrage; and how to think about the separation of church and state. For Christians ready to be salt and light, as well as for those of a different faith or no faith at all, Faithful Presence argues that faith can be a redemptive, healing presence in the public square--as it must be, if our nation is to flourish.

In a world of spiritual options, people constantly tell us what to believe. Yet, while we hear these pleas, we're already functioning with existing beliefs—even if they are beliefs by default. So how do we choose what to believe—especially in the area of faith? Do we need to choose? In Choosing Your Faith, Mark Mittelberg encourages us, as Socrates does, not to lead an unexamined life. He invites us to examine why we believe what we believe. This examination will resonate with Christians and seekers alike.
