students. Here's how: Students see the concepts in action Up-to-date information covers critical topics Students get numerous opportunities to practice and hone their skills Instructors get the flexibility to tailor the material to fit their individual course needs

This text seeks to show the reader how to design and use an accounting information system (AIS) to provide information useful for decision-making. Focus boxes providing real world examples of concepts, techniques and practices as described are interspersed in the text. This edition has chapters on the three basic functions of the AIS together with an understanding of what the system does manually, and on data modelling, covering how students
