Demonstrates the importance of each life in the scheme of things and shows not only that it is possible, but also how it is possible for one person to make a lasting impression on humanity as a whole.

You have heard about it in Pay It Forward, you've heard about it in Six Degrees of Separation , but no single author has given as much consideration to the laws of influence as King Duncan does here. This reader-friendly book looks at chaos theory--how small changes can trigger monumental transformations. The example of this theory most often cited is that of Edward Lorenz, who discovered in the 1960s that the tiniest movement in the air in one part of the world can produce dramatic changes in weather patterns months later in another part of the world. Thus, a butterfly flapping its wings in Malibu might set into motion a series of events that could produce a monsoon months later in Malaysia. The Law of Influence states that one life touches another and potentially both lives are changed; through this change, potentially the entire world is changed. Even chance events--a smile, a word spoken at just the right moment, or even people like John Howard, who helped a young English journalist return home. The young journalist was Winston Churchill, and the rest is history. More important than explaining what the law of influence is, this book explains how individuals can use it to create a life worth living, and to share the lessons to create families and communities that work together for the greater good. Together, people aware of and involved with their own influence on others have the potential to make amazing things happen. King Duncan is a professional speaker and author of two other books, Amazing Grace: Humor to Heal Mind, Soul, and Body , and The One-Minute Motivator . In 1993, he was the national winner of the International Platform Association's prestigious Speaker's Ladder Award. He lives in Knoxville, Tennessee, where he owns and manages his communications company, Seven Worlds Corporation.

Her husband had everything: wealth, privilege, position, and a royal title. Yet instead of him, Princess Diana won over the whole world. Why? She understood the Law of Influence.

Maxwell has taken this million-seller and made it even better: Every Law of Leadership has been sharpened and updated Seventeen new leadership stories are included Two new Laws of Leadership are introduced New evaluation tool will reveal your leadership strengths and weaknesses New application exercises in every chapter will help you grow Why would Dr. Maxwell make changes to his best-selling book? "A book is a conversation between the author and reader," says Maxwell. "It's been ten years since I wrote The 21 Laws of Leadership. I've grown a lot since then. I've taught these laws in dozens of countries around the world. This new edition gives me the opportunity to share what I've learned."

Leadership is developed daily, not overnight. This law, taken from The Twenty One Irrefutable Laws of Leadership is the first of the series to be placed into an individual study. Take each opportunity as it comes along and find the answer in a way only strong leaders would do itâ€¦by processing it. John explains how and why "Champions don't become champions in the ringâ€¦they are merely recognized there."

Are there tried and true principles that are always certain to help a person grow? John Maxwell says the answer is yes. He has been passionate about personal development for over fifty years, and for the first time, he teaches everything he has gleaned about what it takes to reach our potential. In the way that only he can communicate, John teaches . . . The Law of the Mirror: You Must See Value in Yourself to Add Value to Yourself The Law of Awareness: You Must Know Yourself to Grow Yourself The Law of Modeling: It's Hard to Improve When You Have No One But Yourself to Follow The Law of the Rubber Band: Growth Stops When You Lose the Tension Between Where You are and Where You Could Be The Law of Contribution: Developing Yourself Enables You to Develop Others This third book in John Maxwell's Laws series (following the 2-million seller The 21 Irrefutable Laws of Leadership and The 17 Indisputable Laws of Teamwork) will help you become a lifelong learner whose potential keeps increasing and never gets "used up."
