The Great Michigan Read 2013-14 Michigan Notable Book for 2010 A Washington Post Book World's "Best Books of 2009," Memoir Beth Luxenberg was an only child. Or so everyone thought. Six months after Beth's death, her secret emerged. It had a name: Annie. Steve Luxenberg's mother always told people she was an only child. It was a fact that he'd grown up with, along with the information that some of his relatives were Holocaust survivors. However, when his mother was dying, she casually mentioned that she had had a sister she'd barely known, who early in life had been put into a mental institution. Luxenberg began his researches after his mother's death, discovering the startling fact that his mother had grown up in the same house with this sister, Annie, until her parents sent Annie away to the local psychiatric hospital at the age of 23. Annie would spend the rest of her life shut away in a mental institution, while the family erased any hints that she had ever existed. Through interviews and investigative journalism, Luxenberg teases out her story from the web of shame and half-truths that had hidden it. He also explores the social history of institutions such as Eloise in Detroit, where Annie lived, and the fact that in this era (the 40s and 50s), locking up a troubled relative who suffered from depression or other treatable problems was much more common than anyone realizes today.

THE SISTERS O'DONNELL by Lyn Andrews is a warm-hearted and nostalgic saga not to be missed by readers of Maureen Lee and Katie Flynn. Throughout County Tipperary the three sisters were known as the Sisters O'Donnell. They all have red hair, but little else in common. Together they move to Liverpool in the 1920s to make a new life for themselves - although each sister intends to go about it in her own sweet way. Gina wants to be a star of the theatre, Mary-Kate wants to find a husband, and Bridget, shy, gentle Bridget, just wants to escape the Troubles. But when they get to Liverpool they realise that fame and fortune are thin on the ground as, indeed, is work. And their money is running out fast... The sisters have a long way to go before they fulfil their dreams - will the bonds of sisterhood be enough to hold them together?

“ Magnificent. ” (Anthony Doerr, author of *All the Light We Cannot See*) From Annie Proulx, the Pulitzer Prize- and National Book Award-winning author of *The Shipping News* and “ *Brokeback Mountain* ” comes her masterwork: an epic, dazzling, violent, marvelously dramatic novel about the destruction of the world ’ s forests. In the late seventeenth century, two penniless young Frenchmen, Ren é Sel and Charles Duquet, arrive in Canada, then known as New France. Bound to a feudal lord, a seigneur, for three years in exchange for land, they become woodcutters—barkskins. Sel suffers extraordinary hardship, oppressed by the forest he is charged with clearing. He is forced to marry a Mi ’ kmaw woman, and their descendants live trapped between two hostile cultures. Duquet, crafty and ruthless, runs away from the seigneur, becomes a fur trader, then sets up a timber business. Proulx tells the stories of the descendants of Sel and Duquet over three hundred years—their travels across North America, to Europe, China and New Zealand under stunningly brutal conditions—the revenge of rivals, accidents, pestilence and cultural annihilation. Again and again, they seize what they can of a presumed infinite resource, leaving the modern-day characters face-to-face with possible ecological collapse. Proulx ’ s inimitable genius is her creation of characters who are so vivid—in their greed, lust, vengefulness or their compassion and hope—that we follow them with fierce attention. Annie Proulx is one of the most formidable and compelling American writers, and *Barkskins* is her greatest novel, a superb marriage of history and imagination.

"Yet it is less Martin's own personal history than that of his family - both paternal and maternal - that makes this narrative vital for those who would understand the African American experience west of the Mississippi. After avid genealogical research and the generous memory-sharing of relatives, Martin has crafted the story of his forebears from Emancipation to their exodus from the South and Texas - begun even before the great black migrations that occurred around the two world wars. As Martin explains it, he and his brother "arrived on the scene at the confluence of these family streams in time to catch a ride to the shining sea." "Martin reveals his family's struggles and triumphs as they embrace their new life in the western united States. Students, scholars, and interested general readers of modern African American history and sociology will be greatly rewarded by reading this warm and vivid personal and family memoir."--Jacket.

With a widowed mother and six siblings, Annie Oakley first became a trapper, hunter, and sharpshooter simply to put food on the table. Yet her genius with the gun eventually led to her stardom in Buffalo Bill ’ s Wild West Show during the latter half of the nineteenth century. The archetypal western woman, Annie Oakley urged women to take up shooting to procure food, protect themselves, and enjoy healthy exercise, yet she was also the proper Victorian lady, demurely dressed and skeptical about the value of women ’ s suffrage. Glenda Riley presents the first interpretive biography of the complex woman who was Annie Oakley.
