(2005) a research methodology or strategy is determined by the nature of the research question and the subject being investigated. As a result the research format used in an investigation should be seen as a tool to answer the research question. This thesis aimed at exploring and

3. CHAPTER 3 RESEARCH METHODOLOGY

Methodology refers to the overarching strategy and rationale of your research project. It involves studying the methods used in your field and the theories or principles behind them, in order to develop an approach that matches your objectives.. Methods are the specific tools and procedures you use to collect and analyze data (for example, experiments, surveys, and statistical

How to Write a Research Methodology in Four Steps

Research methods are specific procedures for collecting and analyzing data. Developing your research methods is an integral part of your research design. When planning your methods, there are two key decisions you will make. First, decide how you will collect data. Your methods depend on what type of data you need to answer your research question: Qualitative vs. quantitative: Will your data take the form of words or numbers?
