GATE Papers [PDF] - AR (Architecture and Planning)

If you've been following the blog, you will have seen a couple of posts recently about the alignment of software architecture and code. Software architecture vs code talks about the typical gap between how we think about the software architecture vs the code that we write, while An architecturally-evident coding style shows an example of how to ensure that the code does reflect those architectural concepts. The basic summary of the story so far is that things get much easier to understand if ...
