They took the tried and true Starshoot autoguider camera and mated it with their 80mm short tube refractor, added in a Vixen style rail and tube rings to give you an amazing autoguiding package. This package is excellent for larger telescopes or for areas where there is a lot of light pollution and you have trouble finding stars to guide off of.

Best Autoguider and Guide Scope for 2020 – Astronomy Online

No matter all the bad reviews I am glad I bought NexGuide Autogider. It literally takes me about 2-3 minutes to get the guiding going as soon as I find a star and so far I didn't have a problem of finding one bright enough for NexGuide to detect it. With the number of options that you can customize you can get it to guide on very faint stars.

Amazon.com: Customer reviews: Celestron NexGuide ...

4.0 out of 5 stars Great autoguider and scope. Reviewed in the United States on January 30, 2016. Verified Purchase. The orion autoguider and scope made a big difference in my long exposure astrophotographs. I did have a problem with the mount because it was too short from my scope (Celestron 1100 HD). I was able to solve the problem by machining a couple of new holes at the ends of the mount and then made some bushings to fit in the new holes. 4 stars instead of 5 because of the extra work ...

The ' stand-alone ' element of the MGEN-3 autoguider is impressive. We found the equipment completely plug-and-play and the control box comes with a ' live view ' function in place of a laptop screen.

Lacerta MGEN-3 stand-alone autoguider review ...

Having the ability to autoguide your imaging session means longer exposures and better results. This review should give you an idea of what to expect when using this Mono sensor camera from Altair Astro. The Altair 60mm Guide Scope Package in use with a small refractor telescope. The 60mm Starwave Guide Scope Package

60mm Starwave Guide Scope Package for Autoguiding (Review)

An autoguider is a digital camera with a CCD or CMOS detector at the focus of the guidescope or, in the case of an off-axis guider, at the focus of the imaging instrument after some of its light has been diverted by a small prism.

What is an autoguider? - skyatnightmagazine

Be sure to check out my full review of this electronic polar scope. Even with your polar alignment spot-on, and your payload perfectly balanced, autoguiding is often necessary to track your object smoothly enough for astrophotography. This is especially true on beginner level GoTo mounts such as the Sky-Watcher HEQ5 Pro pictured below.

Autoguiding a Telescope for Deep Sky Astrophotography ...

The Sky-Watcher SynGuider is a simple and elegant stand-alone autoguider that can guide a German Equatorial Mount equipped with an St-4 autoguider port without the use of a PC/Laptop. Features real-time star image display, standard ST-4 autoguider interface, user upgradeable firmware and M42 or 1.25" telescope connections.

Sky-Watcher Synguider Autoguider II | First Light Optics

Stars on display. The SynGuider is very different from most other autoguiding systems in that it is very much a stand-alone unit. This gives it an immediate advantage over other autoguiders in that you don ' t need a PC or guiding software to operate it, so there is less equipment to carry around and set up.

Sky-Watcher SynGuider review - skyatnightmagazine

In fact, the original Lodestar was considered to be the best autoguider on the market for a long time. The X2 version is the successor to the original Starlight Xpress Lodestar autoguider and uses a Sony ICX829 Exview sensor. It is the most sensitive compact guide camera Starlight Xpress has to offer. In this post, I ' ll share my experiences using the Starlight Xpress Lodestar X2, and the images I ' ve been able to capture using the autoguiding capabilities of the camera.

Using a Starlight Xpress Lodestar X2 Autoguider for ...

The SSAG (Orion Starshoot autoguider) is a popular guide camera with a comparable sensor size to the 290mm Mini. In the reviews I have read, the SSAG sometimes struggles to find guide stars (especially when using OAG).

ZWO ASI290MM Mini | Perfect Guide Camera for the ZWO ASiAir

2.0 out of 5 stars Cheap, but save your money and get a decent CCD or CMOS autoguider Reviewed in the United States on July 13, 2019 This autoguider isn't very sensitive, and it's often hard to find guide stars.
