Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, College Essay Essentials is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

Provides guidelines and examples for handling research, outlining, spelling, punctuation, formatting, and documentation.

“[A] stunning tale of academic fraud . . . shocking and compelling.”—The Washington Post Dave Tomar wrote term papers for a living. Technically, the papers were “study guides,” and the companies he wrote for—there are quite a few—are completely aboveboard and easily found with a quick web search. For as little as ten dollars a page, these paper mills provide a custom essay, written to the specifics of any course assignment. During Tomar’s career as an academic surrogate, he wrote made-to-order papers for everything from introductory college courses to Ph.D. dissertations. There was never a shortage of demand for his services. The Shadow Scholar is the story of this dubious but all-too-common career. In turns shocking, absurd, and ultimately sobering, Tomar explores not merely his own misdeeds but the bureaucratic and cash-hungry colleges, lazy students, and even misguided parents who help make it all possible.

Provides tips and techniques for writing reports, term papers, and essays, including information about grammar, brainstorming, and research.

A disturbing trend faces education in the U.S.—not plagiarism but academic forgery (students purchasing and signing their names to work produced by others). This book, by a former professional forger, describes the difference between the two and presents case studies along with an expose of the trade. The author provides a thorough treatment of the topic and reveals the serious implications for the future of academia. Educators should educate themselves about forgery and join the conversation about solving the problem.
