OpenCV: Writing documentation for OpenCV
Interview with Daniel Cremers in the new episode of OpenCV AI for Entrepreneurs podcast In this week ' s episode of the AI for Entrepreneurs, Anna Petrovicheva, CTO of OpenCV.AI, is talking to Daniel Cremers, Professor of Informatics and Mathematics and Chair of Computer Vision & Artificial Intelligence at the Technische Universit ä t M ü nche and one of the most influential scientists in Germany.

Home - OpenCV
Explains the theory behind basic computer vision and provides a bridge from the theory to practical implementation using the industry standard OpenCV libraries Computer Vision is a rapidly expanding area and it is becoming progressively easier for developers to make use of this field due to the ready availability of high quality libraries (such as OpenCV 2). This text is intended to facilitate ...

A Practical Introduction to Computer Vision with OpenCV ...
After installing the OpenCV library and setting up our programming environment, our next task is to make something interesting happen with code. In order to do this, we ' ll have to discuss header files. Fortunately, the headers reflect the new, modular structure of OpenCV introduced in Chapter 1. The main header file of interest is .../include/opencv2/opencv.hpp; it just calls the header files for each OpenCV module:

2. Introduction to OpenCV - Learning OpenCV 3 [Book]
Name three Extra OpenCV modules, along with their usage.The xfeatures2d module can be used to access additional feature detection algorithms. This website uses cookies and other tracking technology to analyse traffic, personalise ads and learn how we can improve the experience for our visitors and customers.

Chapter 2, Getting Started with OpenCV - Hands-On ...
The OpenCV and Python project structure The project structure is the way you organize all the files inside a folder in a way that the project best accomplishes the objectives. We are going to start with a .py script (sampleproject.py) that should be with other files in order to complete the information about this script — dependencies, license, how to install it, or how to test it.
