irritants, odors and heat from your kitchen to the outside of your home.

Ductless, or non-vented styles, recirculate air through a filter to remove odors without requiring ducting. Convertible range hoods are offered in ductless or ducted options.

### Range Hoods - Lowe's

The strength of a range hood is measured by the power of air movement drawn through the appliance. The measurement is called CFM, or cubic feet per minute. A typical CFM for daily cooking would be 350 CFM for a standard 30-inch wide electric cooktop. The CFM
