The Union of Concerned Scientists (UCS) announced the release of Cooler Smarter: Practical Steps for Low-Carbon Living, a consumer-oriented book based on an in-depth, two-year effort to determine the most effective actions individual Americans can take to reduce their carbon emissions. “ After two years of research, we learned that when it comes to reducing your carbon emissions, what matters most, in order of importance, is: what and how you drive, the energy you use at home, and what you ...

Cooler Smarter: Practical Steps for Low-Carbon Living ...

For our book Cooler Smarter: Practical Steps for Low-Carbon Living, our team took an in-depth look at how much carbon we emit doing lots of the things we do as consumers, based on what we buy and how we live—and what matters most when it comes to cutting carbon. And here ’ s what we found: For the average American household, how much we emit depends mostly on what and how we drive, how we use energy at home, and what we eat.
