COVID-19: GCSE and A-level students could be told what is on their exam papers in advance

We live in an astounding universe, but one day it will end. Katie Mack's novel takes the reader on a disarming tour of some possibilities.

Katie Mack: 'The universe is doomed to perish'

Dark matter could be even weirder than anyone thought, say cosmologists who are suggesting this mysterious substance that accounts for more than 80% of the universe's mass could interact with itself.

Can we explain dark matter by adding more dimensions to the universe?

Mr Doyle also said there was "fabulous choice" in the section and repetition from past papers meant that hard working students would have been rewarded. Studyclix.ie expert and physics ...

Leaving Cert physics: Searching questions but plenty of choice

British-based banking app Revolut's latest \$33 billion valuation, achieved after a fresh funding round, has likely made its cofounder and Chief Executive Nik Storonsky a billionaire several times over ...

Lehman Brothers trader to fintech billionaire: Revolut's Nikolay Storonsky

As society moves toward a renewable energy future, it's crucial that solar panels convert light into electricity as efficiently as possible. Some state-of-the-art solar cells are close to the theoret ...

Cutting Through Noise to Improve Solar Cell Efficiency

Computers have proven invaluable in their ability to disseminate information, but it may be at great expense if we humans fail to think for ourselves.

How much can we afford to forget, if we train machines to remember?

More than eight in 10 candidates entered for both accounting and physics indicated ... adjustments in question one, "students who practiced past exam papers should have been prepared and should ...

Students who showed up for exams rewarded with favourable papers

Ecological biosignatures" hold promise for revealing alien organisms that may dwell within icy moons such as Jupiter's Europa and Saturn's Enceladus ...

New Approach Could Boost the Search for Life in Otherworldly Oceans

Methane tends to only be made by biological life, so scientists are wondering if the source is from alien microbes.

'Alien burp' may have been detected by NASA's Curiosity rover

Pruthvi Mehta says more support is needed for non?native English-speaking scientists who can feel isolated and disadvantaged in what to them is an unfair system ...

Why we need to break down the language divide in scientific publishing

Using a novel device made from carbon atoms and a laser, researchers captured real-time electrical signals from muscle tissue.

A Graphene 'Camera' Images the Activity of Living Heart Cells

Physicists used cross-correlation noise spectroscopy to measure miniscule fluctuations in electrical current flowing between materials inside silicon solar cells. The researchers identified crucial ...

Cutting through noise for better solar cells

Finding the hypothetical particle axion could mean finding out for the first time what happened in the Universe a second after the Big Bang, suggests a new study published in Physical Review D. How ...

Axions Could Be the Fossil of the Universe Astrophysicists Have Been Waiting For

There is a famous saying that culture eats strategy, which can be reformulated to postulate that culture eats AI self-driving cars. Here's why that might ring true.

Culture Eats AI Self-Driving Cars For Lunch

Louis Oosthuizen is halfway home to victory, his record-breaking 11-under total through two days at Royal St. George's providing a two-shot cushion over Collin Morikawa. Entering the Open off ...

British Open 2021: The stats that show why Louis Oosthuizen finishes second so often at majors
