Technology as a Political Topic and
Campaign Platform More

controversially, most political candidates and many political organizations have strong stances on many topics that have to do with technology, such as data privacy. Many politicians (and members of the public) feel strongly about securing the rights of individuals to privacy. The “right to be forgotten” has become almost a household term, and in some political circles, such as the Libertarian Party, this right is as crucial to ...

Globalization & Digital Cultures | Cultural Politics

Social media and other elements of digital culture are tools that can be used by anyone with the skill and knowledge to use them. Whether they are used to build more egalitarian political cultures or to deepen inequality will depend upon which forces develop the political will and skill to prevail.
