Doctor Glas, by the Swedish writer Hjalmar Soderberg, was written in 1905, but still feels modern. I struggled to date it as I read, thinking it was perhaps from the 1920s. There is reference to using the telephone, and then late on in the book there is an aside about the Dreyfus Affair which was only resolved in 1906 having been running since 1894.

The aftermath of his death and the doctor's unforeseen reactions to it bring the story to a chilling, horrifying close. ' It ' s a good story, Samuel. You ' re a piece of living history. ' Oxford 1863: Young Samuel Speed sets a barley stack alight in the hope it will earn him a bed in prison for the night. He wants nothing more than a morsel of food in his belly and a warm place to sleep off the streets. What he receives is a sentence of seven years ' servitude, to be served half a world away in the penal colony of Fremantle, Western Australia. When Samuel boards the transport ship Belgravia, he is stripped of his clothing and even his name, and given regulations of when to rise, eat, clean and sleep. On arrival at Fremantle Prison, hard labour is added to the mix and he wonders if life can get any worse. The only solace he finds is a love of reading, which allows the likes of Tom Sawyer and Oliver Twist to become his lifelong friends. Samuel is granted a ticket of leave in 1867 and full freedom in 1871, but what sort of life can a man forge for himself in the colony, with no skills, no money and no family? Will it be the beginning of the life he has always dreamed of, or do some sentences truly never end? A colourful recreation of the life and times of the last known convict to be sent to Australia, *The Last Convict* is a moving study of old age and loneliness, as one social outcast finds meaning in his impoverished life through the power of literature. Meticulously researched and brilliantly woven into an engaging fictional account, it is an unforgettable story by an award-winning writer and historian. 'A story of hardship and privation, alongside high adventure, a fresh start in the colonies, and the protagonist's enduring solace in discovering the delights of literature. A ripping yarn.' *The Age*

"Blind to the prejudices that blind him, Simmonds unwittingly reveals in the disquieting pages of his journals the rancor he harbors in his soul as he sets out on a course that withholds its full horror until the very end."--BOOK JACKET.

The poems of Charles Baudelaire are filled with explicit and unsettling imagery, depicting with intensity every day subjects ignored by French literary conventions of his time. 'Tableaux parisiens' portrays the brutal life of Paris's thieves, drunkards and prostitutes amid the debris of factories and poorhouses. In love poems such as 'Le Beau Navire', flights of lyricism entwine with languorous eroticism, while prose poems such as 'La Chambre Double' deal with the agonies of artistic creation and mortality. With their startling combination of harsh reality and sublime beauty, formal ingenuity and revolutionary poetic language, these poems, including a generous selection from *Les Fleurs du Mal*, show Baudelaire as one of the most influential poets of the nineteenth century.
