Now in its thoroughly revised, updated Seventh Edition, this Spiral® Manual provides practical, easily accessible information on management of the pregnant patient. Major sections cover obstetric care, obstetric complications, maternal complications, fetal assessment, fetal complications, and neonatal care. This edition's chapters have a new consistent outline structure, more tables, and more figures. Coverage includes a new chapter on obstetric anesthesia and new information on drugs for cardiovascular, neurologic, and endocrine conditions, including oral agents for gestational diabetes. The chapter on genetic counseling has been completely rewritten. This edition also addresses controversies regarding surgical births and vaginal birth after cesarean (VBAC).

With its tutorial-based approach, this is a practical guide to both hand- and computer-drawn design. Readers will learn to think three-dimensionally and build complex design ideas that are structurally sound and visually clear. The book also illustrates how these basic skills underpin the use of computer-aided design and graphic software. While these applications assist the designer in creating physical products, architectural spaces and virtual interfaces, a basic knowledge of sketching and drawing allows the designer to fully exploit the software. Foundational chapters show how these technical skills fit into a deeper and more intuitive feeling for visualisation and representation, while featured case studies of leading designers, artists and architects illustrate the full range of different drawing options available. Hundreds of hand-drawn sketches and computer models have

been specially created to demonstrate critical geometry and show how to build on basic forms and exploit principles of perspective to develop sketches into finished illustrations. There's also advice on establishing context, shading and realizing more complex forms.

AAEVT's Equine Manual for Veterinary Technicians offers a compendium of information on the care and treatment of horses for equine veterinary technicians. Highly accessible and easy to use, the book builds on the basics of equine care to provide a complete reference for equine nursing and technical skills. AAEVT's Equine Manual for Veterinary Technicians is an invaluable guide for qualified equine veterinary technicians and assistants, particularly those earning their equine certification, vet tech students, and equine practices.

This book, as well as complementary volume Maternal-Fetal Evidence Based Guidelines, aims to present the reader with the right information, with appropriate use of proven interventions and avoidance of ineffectual or harmful ones. It also rates the evidential base of the key references. The information is presented in an easy-to-access format by summarizing evidence succinctly and clearly in tables and algorithms. This volume reviews the evidence for best practice in obstetrics. New to this edition: New chapters on Jehovah's Witness patients and preconception

First Published in 2011. Routledge is an imprint of Taylor & Francis, an informa company.

Systemic Interventions for Collective and National Trauma explains the theoretical basis for understanding collective and national trauma through the concept of systems theory, and gives ways of implementing systems theory in interventions at the micro, mezzo, and macro levels. Particular attention is given to the use of socio-political and cultural aspects of interventions with victims, as well as to the ethical codes that social workers and other mental health professionals need to integrate in their work with collective/national trauma. Separated into two distinct parts on theory and practice, this volume is appropriate for practitioners as well as students in advanced courses.

In response to the growing concern for the psychological impact of disasters on children, this book integrates a diverse body of literature-including theory, case studies and other research, and assessment and intervention techniques-contributed by many of the fields most experienced professionals. Child and school
