Electronic programming guides and interactive programming guides are menu-based systems that provide users of television, radio and other media applications with continuously updated menus that display scheduling information for current and upcoming broadcast programming. Some guides also feature backward scrolling to promote their catch up content. They are commonly known as guides or TV guides. Non-interactive electronic programming guides are typically available for television and radio, and

**Electronic program guide - Wikipedia**
An electronic program guide or EPG is an interactive screen guide found on set-top boxes, mobile apps, and websites. It is best known as a "TV Guide" that cord-cutters and streamers use for live television. In addition, IPTV subscribers often use an EPG when surfing or browsing through their various channel options.

## EPG for IPTV
An electronic program guide (EPG) is an application used with digital set-top boxes and newer television sets to list current and scheduled programs that are or will be available on each channel and a short summary or commentary for each program. EPG is the electronic equivalent of a printed television program guide.

## What is electronic program guide (EPG)? - Definition from...
Electronic program guide: Electronic program guide (EPG) software must be capable of being written using OCAP APIs, but OCAP does not specify a particular EPG. This is up to the software chosen by the operator. EPGs typically offer a grid showing programs available on the system at the present time and for some length of time into the future.
