Formulation Of Glossy
Emulsion Paint

Experiment Journal

Emulsion Emulsion is

water-based paint, with

vinyl or acrylic resins

added to make the finish

hardwearing. This

results in varying

degrees of sheen –

generally, the shinier the

finish, the tougher the

paint. Use for interior

walls and ceilings.

finish that can hide imperfections. Mid sheen reflects some light but has a lower shine finish than silk emulsion. A silk finish reflects more light, resulting in a soft sheen on the surface that is easier to wipe down. For use on wood and metal, the gloss range features a bright, high shine finish.
