Revised edition of Foundations of finance, 2014.

This custom edition is specifically published for Australian National University.

Now updated and reorganized, Alan Shapiro's Foundations of Multinational Financial Management, 6/e emphasizes broad concepts and practices, and provides a clear conceptual framework for analyzing key financial decisions in multinational firms. The text treats international financial management as a natural and logical extension of the principles learned in the foundations course in financial management. Thus, it builds on and extends the valuation framework provided by domestic corporate finance to account for dimensions unique to international finance. Shapiro 6e is primarily intended for an undergraduate audience; but it is suitable for use in masters-level courses when there is not time to cover

the full range of topics. This text assumes no prior knowledge of international finance.

Block Foundations of Financial Management is a proven and successful text recognized for its excellent writing style and step-by-step explanations that make the content relevant and easy to understand. The text's approach focuses on the "nuts and bolts" of finance with clear and thorough treatment of concepts and applications. Block provides a strong review of accounting and early coverage of working capital (or short term) financial management before covering the Time Value of Money. Foundations of Financial Management is committed to making finance accessible to students. This text has stood the test of time due to the authors' commitment to quality revisions.
