From the beginning it was apparent to us that "FREIGHT TRAIN GRAFFITI" is really a story that had to be told by graffiti writers. In the past books focusing on graffiti have been written by onlookers. People who see a part of the culture and are so enthused with it that they see the need to preserve it. Otherwise they're written by one or two graffiti writers, which in many cases are only highlighting their respected perspective on the subject. Chip

More comprehensive than any other book on the subject, Wall Writers explores not only early graf writing itself but the writers creating it, the new technology of spray paint that made it possible, and the culture that drove them to write -- be it a need to rebel against the government, to pass a message, or simply be recognized by society. Hundreds of images of everything from spray paint advertisements to
