Leadership Principles for Lasting Success Leadership makes great companies, but few of us truly understand how to turn ourselves and others into great leaders. One company—the Jesuits—pioneered a unique formula for molding leaders and in the process built one of history’s most successful companies. In this groundbreaking book, Chris Lowney reveals the leadership principles that have guided the Jesuits for more than 450 years: self-awareness, ingenuity, love, and heroism. Lowney shows how these same principles can make each of us a dynamic leader in the twenty-first century.

Christian leaders, by definition, are called to follow a different set of leadership principles than

other leaders follow. But what are they, and how do Christian leaders follow them? In *Heroic Leadership*, Jesuit-seminarian-turned-investment-banker Chris Lowney examines organizational principles of effective leadership derived from the history and teachings of the Jesuits and applies them to modern corporate culture. Based on the four core values of self-awareness, ingenuity, love, and heroism, this book identifies practices that sixteenth-century priests developed to foster dynamic, effective leaders and achieve longevity.

TIME Magazine's Person of the Year: Pope Francis Learn about the First Jesuit Pope from America's Leading Jesuit Publisher "Pope Francis by Chris Lowney is that rare and splendid work that leaves you keenly excited and spiritually moved. The writing is lucid, vivid, inviting, and rich. It's a major achievement. I strongly recommend it to any Christian in a leadership role." - Joseph Tetlow, SJ From choosing to live in a simple apartment instead of the papal palace to washing the feet of men and women in a youth detention center, Pope Francis's actions contradict behaviors expected of a modern leader. Chris Lowney, a former Jesuit seminarian turned Managing Director for JP Morgan & Co., shows how the pope's words and deeds reveal spiritual principles that have prepared him to lead the Church and influence our world—a rapidly-changing world that requires leaders who value the human need for love, inspiration, and meaning. Drawing on interviews with people who knew him as Father Jorge Bergoglio, SJ, Lowney challenges assumptions about what it takes to be a great leader. In so doing, he reveals the "other-centered" leadership style of a man whose passion is to be with people rather than set apart. Lowney offers a stirring vision of leadership to which we can all aspire in our communities, churches, companies, and families.

Winner of the University of San Diego Outstanding Leadership Book Award 2012! Shortlisted for the British Psychological Society Book Award 2011! Shortlisted for the CMI (Chartered Management Institute) Management Book of the Year Award 2011–2012! According to John Adair, the most important word in the leader's vocabulary is "we" and the least important word is "I". But if this is true, it raises one important question: why do psychological analyses of leadership always focus on the leader as an individual – as the great "I"? One answer is that theorists and practitioners have never properly understood the psychology of "we-ness". This book fills this gap by presenting a new psychology of leadership that is the result of two decades of research inspired by social identity and self-categorization theories. The book argues that to succeed, leaders need to create, champion, and embed a group identity in order to cultivate an understanding of 'us' of which they themselves are representative. It also shows

how, by doing this, they can make a material difference to the groups, organizations, and societies that they lead. Written in an accessible and engaging style, the book examines a range of central theoretical and practical issues, including the nature of group identity, the basis of authority and legitimacy, the dynamics of justice and fairness, the determinants of followership and charisma, and the practice and politics of leadership. The book will appeal to academics, practitioners and students in social and organizational psychology, sociology, political science and anyone interested in leadership, influence and power.

Drawing on decades of leadership experience, bestselling author Chris Lowney examines the profound challenges facing the global Catholic Church, shares real-life stories of Catholics making a difference, and offers practical suggestions for change. The Catholic Church is suffering its worst decline in five centuries—a precipitous slide that will turn catastrophic unless reversed by fundamental changes in strategy, culture, and leadership style. Even the inspiring leadership of Pope Francis will not reverse the slide without a strategy for action, from the grassroots through the hierarchy. Chris Lowney, a former Jesuit seminarian and business executive who now chairs one of the world's largest Catholic ministries, not only outlines the challenges but also maps the path forward in *Everyone Leads*. After a bracing review of the church's global struggles—from clergy shortages to declining participation—Lowney draws on two decades of change-management experience to propose an "EASTeR" strategy of five transformational principles: be entrepreneurial, be accountable, serve, transform, and reach out. These five ideas can catalyze profound change in every parish, in how bishops think, and in the roles laypeople play in leading the church. Filled with real-life examples, *Everyone Leads*

outlines strategies that anyone can employ—from the pews to the pulpit—to strengthen the church. As a former business executive who lectures globally about leadership, Lowney speaks credibly about the institution’s challenges and potential. And, as chair of one of Catholicism’s largest hospital systems, he writes “from within” as a Catholic who loves his church and is committed to seeing it flourish.

The more traditional forms of leadership that are based on static hierarchies and professional distance between leaders and followers are growing increasingly outdated and ineffective. As organizations face more complex interdependent tasks, leadership must become more personal in order to insure open trusting communication that will make more collaborative problem solving and innovation possible. Without open and trusting communications throughout organizations, they will continue to face the productivity and quality problems that result from reward systems that emphasize individual competition and “climbing the corporate ladder”. Authors Edgar Schein and Peter Schein recognize this reality and call for a reimagined form of leadership that coincides with emerging trends of relationship building, complex group work, diverse workforces, and cultures in which everyone feels psychologically safe. Humble Leadership calls for “here and now” humility based on a deeper understanding of the constantly evolving complexities of interpersonal, group and intergroup relationships that require shifting our focus towards the process of group dynamics and collaboration. Humble Leadership at all levels and in all working groups will be the key to achieving the creativity, adaptiveness, and agility that organizations will need to survive and grow.
