Bring Science Alive! is an Integrated program built from the ground up to align to the Next Generation Science Standards (NGSS). Bring Science Alive! embodies the new vision for how science should be taught in schools-focusing on big picture concepts and teaching students how to "do science"--rather than memorize facts. [from publisher's website]

This document is a response to teachers' requests for practical assistance in implementing California's history-social-science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the framework's 7th grade course description are developed in these course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for teachers to coordinate the model with the state-adopted textbook for 7th grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)

Helping students succeed in three main parts: class involvement activities, reading this book, and writing about your learning in an interactive notebook.

History Alive! The Ancient World introduces students to the beginnings of the human story. As they explore the great early civilizations of Egypt and the Near East, India, China, Greece, and Rome, students discover the secrets of these ancient cultures that continue to influence the modern world. History Alive! The Medieval World and Beyond explores the legacy of civilizations from Europe, Africa, and the Middle East to Asia and the Americas. History Alive! The United States Through Industrialism immerses students in a powerful journey through the history of the United States from its earliest foundations to the age of industrialism. History Alive! The United States Through Modern Times captures the story of the United States from the precolonial era to the 21st century.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).
