An interesting book containing 35 examples of problems that production and inventory management professionals face throughout their working lives. Introduction to Materials Management Casebook allows readers to have a better understanding of the issues involved in their decisions on the job. It asks readers to think beyond the box, showing them the multiple concepts that must be considered to find solutions to the problems at hand. The small, focused cases presented allow readers to fully understand the problems that they can encounter; topics covered include: physical inventory, process design, purchasing, production planning, master production schedules; vanishing inventory; long-range capacity; business organization; forecasting; warehousing; consolidation; transportation; and quality. An excellent resource for those involved in production planning, inventory control, traffic, and marketing.

For all courses in Materials Management, Production, Inventory Control, and Logistics taught in business and industrial technology departments of community colleges, four-year colleges, and universities. Helps readers understand all elements of production planning and control, and how they fit together. Introduction to Materials Managementcovers all the essentials of modern supply chain management, manufacturing planning and control systems, purchasing, and physical distribution. Clearly written and exceptionally user-friendly, it's content, examples, questions, and problems lead students step-by-step to mastery. Widely adopted by colleges and universities worldwide, this is the only APICS-listed reference text for the Basics of Supply Chain Management (BSCM) CPIM certification examination.

The SAGE Text and Cases Series, featuring IVEY Cases is a co-publishing partnership between SAGE Publications and the Richard Ivey School of Business at The University of Western Ontario. Due to their popularity in more than 60 countries, approximately 200 new cases are added to the Ivey School of Business library each year. These affordable collections not only help students connect to real-world situations, but benefit corporations seeking continued education in the field as well. Introduction to Nonprofit Management: Text and Cases is a unique collection of 28 cases from Ivey Publishing. This casebook helps students gain a better understanding of nonprofit management by providing them with a look at the complex issues that leaders of nonprofit organizations must tackle on a regular basis.

The Global Human Resource Management Casebook is a collection of business teaching cases, focusing on Human Resource Management issues around the world. Each case is based in a single country and illustrates one or more significant challenge faced by managers and HR practitioners. The influence of the unique national cultural and institutional context upon the issues in the case is emphasized. In total 32 unique and original cases are presented, each from different national contexts. Every case is followed by a set of questions for use in class discussion or private study of the cases. This casebook is a project undertaken by a committee of international members of the Human Resources Division of the Academy of Management (USA). The HR Division currently has over 3500 members worldwide, indicating a significant immediate audience for the text. The committee, referred to as the HR Ambassadors Committee (James Hayton, Chair) is intended to represent the global membership of the organization. We currently have members in over 60 countries, and Ambassadors for over 50 of these. The committee was established to contribute to the internationalization of the HR Division and the Academy of Management by creating collaborative projects that both involve and serve the global membership. This book, which represents the first product of our collaboration, is expected to provide a useful teaching tool for HRM educators, and secondarily is expected to be of use to HR practitioners with an interest in the globalization of HRM.

This introductory textbook describes the basics of supply chain management, manufacturing planning and control systems, purchasing, and physical distribution. The fourth edition makes additions in kanban, supply chain concepts, system selection, theory of constraints and drum-buffer-rope, and need f

MULTI-SECTOR CASEBOOK IN HEALTH ADMINISTRATION, LEADERSHIP, AND MANAGEMENT is a thought-provoking introduction to modern health management and leadership through a compelling collection of cases based on real-world scenarios. The selected cases cover a wide range of important issues faced by public, non-profit, and for-profit organizations, providing you with a broad, highly practical overview of situations, roles, and responsibilities you may encounter in your professional career.Key topics include quality improvement, leadership, strategic planning, budgeting, organizational behavior and change, human resources, systems thinking, decision making and analysis, working with the public, boards and governance, and legal and ethial issues. This diverse material is presented using a strong, consistent case structure to help readily assess the principles involved, apply critical thinking, and demonstrate and deepen their understanding through discussion or exercises. Perfect as a complement to classroom work or a tool for self-study, this excellent casebook is a must-have resource for current and future health management and public health professionals, Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Strategic Financial Management Casebook strategically uses integrative case studies—cases that do not emphasize specific subjects such as capital budgeting or value based management—to provide a framework for understanding strategic financial management. By featuring holistic presentations, the book puts readers into the shoes of those responsible for the world ' s largest wealth creators. It covers strategies of growth, mergers and acquisitions, financial performance analysis over the past decade, wealth created in terms of stock returns since its listing in stock market, investment and financial decisions, cost of capital, and corporate valuation. In addition, the casebook also discusses corporate restructuring activities undertaken by each company. Each chapter follows a template to facilitate learning, and each features an Excel-based case analysis worksheet that includes a complete data set for financial analysis and valuation. Introduces a conceptual framework for integrating strategy and finance for value creation Emphasizes the roles of corporate governance, corporate social responsibility, and risk management in value creation Encourages an analysis of investment, financing, and dividend decisions Examines non-financial factors that contribute to value
