John Denver was America's biggest-selling solo star of the '70s. In commercial terms he was on a par with Sinatra in the '40s, Elvis in the '50s and the Beatles in the '60s. He experimented with a variety of styles and won fans from such diverse worlds as folk, pop and country music. Beneath the often tranquil surface of his music and his clear, clean tenor voice, however, lurked a darker side to Denver's character. The writer of 'Annie's Song', one of the most straightforward and personal expressions of love, became a wife-beater. The man who cavorted with the Muppets was an alcoholic. The committed environmentalist had his own plane, the most polluting form of transport. John Collis has delved deep to discover exactly who John Denver was. By unravelling the complexities of the singer's personality and background, he reveals Denver as a complicated, contradictory man, much more intriguing than the sometimes placid surface of his music might suggest. Millions of people around the globe found something in his music that touched their souls; Collis, by charting Denver's career and development as an artist, explores his legendary contribution not only to the world of music but also to the society of which he was a protagonist and a victim.

John Denver chronicles the experiences that shaped his life, while unraveling the rich, inner journey of a shy Midwestern boy whose uneasy partnership with fame has been one of the defining forces of his first fifty years.

Good Day! , the critically-acclaimed biography about the legendary Paul Harvey, is now in paperback! In this heartwarming book, author Paul J. Batura tells the all-American story of one of the best-known radio voices in history. From his humble beginnings to his unparalleled career of more than 50 years with ABC radio, Paul Harvey narrated America's story day by day, through wars and peace, through the threat of communism and the crumbling of old colonial powers, through consumer booms and eventual busts.

Explores the life and spirituality of the country singer who died in a plane crash in 1997.
