This unique series gets close up to some amazing areas of our world, and allows readers the opportunity to explore key countries, topographical features and cities in a way that is both engaging and entertaining. In addition, each book highlights significant human, geographical, sporting and economic information.

Take students in grades 5-8 on a field trip without leaving the classroom using Exploring South America! This 48-page book features reading selections and assessments that utilize a variety of questioning strategies, such as matching, true or false, critical thinking, and constructed response. Map projects and hands-on activities engage students in learning about the physical, political, and human geography of South America. For struggling readers, the book includes a downloadable version of the reading selections at a fourth- to fifth-grade reading level. This book aligns with state, national, and Canadian provincial standards.

Presents an introduction to the history, geography, and culture of South America, offering a variety of reading selections and activities for students in grades five through eight.

ATLASES. "The Continents in Close-Up" series explores individual continents through a dynamic combination of photographs, maps, artwork, diagrams, charts and short paragraphs of information. There is a page for each of the major countries and areas featuring a map showing the major cities, rivers and mountain ranges, physical information such as population and area, and other highlighted points of interest whether they be cultural, economic or natural.

Download Ebook Mapping South America Close Up Continents

Another key element of these wonderful books is the thematic maps which show the whole of the continent colour coded to reflect populations densities, beliefs, climate and vegetation, ecology and environment, economy and politics and history.

Detailed photos and full-color maps help take readers on a fascinating visual journey through North America! This book's appealing format highlights the facts about the human and physical geography of the continent. Readers will put their analytical skills to use to interpret different types of maps as sources of information, from physical maps that show the region's landmarks to political maps that teach about the region's countries to interesting cultural and thematic maps.

This book, a collection of fifteen original essays on the film performances and stardom of John Barrymore, redresses the lack of scholarship on Barrymore by offering a range of varied perspectives on the actor's work.

"Get a close-up look at the people and places of Asia. Detailed photos and full-color maps feature the climate, population, natural resources, political boundaries, land formations, and culture of various regions."--Back cover.

Give your readers a sense of what it's like to travel to different destinations in North and South America. This thrilling travel guide combines educational information and exciting activities. As they gain appreciation for cultural diversity and how people live in other countries, fun mazes and activities make learning about this social studies curriculum topic fun. A helpful glossary and informative fact boxes enhance the learning experience. Full-color photographs and illustrations
