Highlighting the most important events, ideas, and individuals that shaped modern Europe, A Concise History of Modern Europe provides a readable, succinct history of the continent from the Enlightenment and the French Revolution to the present day. Avoiding a detailed, lengthy chronology, the book focuses on key events and ideas to explore the causes and consequences of revolutions—be they political, economic, or scientific; the origins and development of human rights and democracy; and issues of European identity. Any reader needing a broad overview of the sweep of European history since 1789 will find this book, published in a first edition under the title Revolutionary Europe, an engaging and cohesive narrative.

Modern European History brings together a unique selection of documents covering the period from 1871 to 2000. The collection is organised by topic, and a clear historical context and chronological chart provide background for each section. This second edition brings the book up to date and includes such key themes in European history as: * Bismarck and Imperial Germany * the Russian Revolution * the origins and aftermath of the First and Second World Wars * Fascist Italy and Nazi Germany * The Spanish Civil War * The Cold War * European Integration 1945-1999 Containing documents such as extracts from diaries, speeches, treaties, poetry, radio broadcasts, photographs, cartoons, political posters and propaganda, this is an essential resource for students of modern British and European history.

Themes in European History treats in thematic fashion a period of great change and upheaval in Europe. A collection of twelve essays by five leading historians, this textbook: * highlights important developments and changes that occurred * sets these changes in their social and cultural context as well as in the political framework * concentrates on the most important powers in Europe * completes each essay with suggestions for further reading to guide your students into continuing their research. Whereas other textbooks of this period focus on the political events, Themes in Modern European History uses a comparative history of institutions and societies, with emphasis on the cultural changes as well. Students are provided with the whole picture of events and are made aware of the wider consequences of the changes taking place - enabling them to understand all aspects of the dramatic transformation of Europe from 1890-1945.

Available in both one-volume and two-volume paperback editions. A History of Modern Europe presents a panoramic survey of modern Europe from the Renaissance to the present day. A seasoned teacher and talented historian, Professor John Merriman offers a carefully crafted narrative that guides students through a vast amount of complex material, integrating the many aspects of the European experience into a larger, interconnected whole. A full ten percent shorter than its predecessor, the Second Edition has tightened organization throughout to make room for recent research and descriptions of the current issues and events that define Europe's role in the world today.

"The title of this book, and perhaps also of the course for which you are reading it, is Early Modern Europe. The dates in the title inform you about the chronological span covered (1450-1789), but they do not explain the designation "early modern." That term was developed by historians seeking to refine an intellectual model first devised during this very period, when scholars divided European history into three parts: ancient (to the end of the Roman Empire in the west in the fifth century), medieval (from the fifth century to the fifteenth), and modern (from the fifteenth century to their own time). In this model, the break between the Middle Ages and the modern era was marked by the first voyage of Columbus (1492) and the beginning of the Protestant Reformation (1517), though some scholars, especially those who focused on Italy, set the break somewhat earlier with the Italian Renaissance. This three-part periodization became extremely influential, and as the modern era grew longer and longer, historians began to divide it into "early modern" - from the Renaissance or Columbus to the French Revolution in 1789 - and what we might call "truly modern" - from the French Revolution to whenever they happened to be writing"--
