How to Troubleshoot a Norcold RV Refrigerator | Gone ...

Norcold refrigerator codes flashes 5 times. If your Norcold refrigerator power ON/indicator light is red, flashes on five times, is off five seconds, then repeats, it means a flame was sensed at the burner when there should be none present. The possible cause for this error is the gas valve is "mechanically" stuck open.

Norcold Refrigerator Troubleshooting Guide - The Indoor Haven

To troubleshoot a "dc LO" fault, connect a charged 12 volt automotive battery to the power board. If the "dc LO" code clears, the fault was caused by unfiltered DC power. If the "dc LO" code does not clear, replace the power board (see page 40).
