Neither are the Conners, which is why you'll find their new second edition packed full of even more tasty favorites from the trails! Completely revised and updated, this all-in-one food guide builds on the format pioneered by the original, providing clear and thorough at-home and on-trail preparation directions, nutrition and serving information, and the weight of each recipe, while adding a wealth of reference information and instructional material. Pacific Crest Pancakes, Jammin' Jambalaya, and Buried Forest Trail Fudge - it's in here!

A new edition of the later selected work of a Nobel Prize-winning poet Often considered to be "the greatest poet of our age" (The Guardian), Seamus Heaney was awarded the Nobel Prize in Literature in 1995 "for works of lyrical beauty and ethical depth, which exalt everyday miracles and the living past." He saw poetry as a vocation and credited it with "the power to persuade the vulnerable part of our consciousness of its rightness in spite of the evidence of wrongness all around it, the power to remind us that we are hunters and gatherers of values." Paul Muldoon wrote that Heaney was "the only poet I can think of who was recognized worldwide as having moral as well as literary authority." Shortly before his death in 2013, Seamus Heaney began to compile Selected Poems 1988 – 2013, and although he was unable to complete the project, his choices have been followed here. This volume encapsulates the finest work from Seeing Things (1991) with its lines of loss and revelation; The Spirit Level (1996) where we experience "the poem as ploughshare that turns time / Up and over."; the landmark translation of Beowulf (1999); Electric Light (2001), a book of origins and oracles; and his final collections, District and Circle (2006) and Human Chain (2010), which limn the interconnectedness of being, our lifelines to our inherited past.

Authored by electron microscopists and leading members of the International Committee on Taxonomy of Viruses (ICTV), the Atlas of Virus Diagrams includes chapters on virus classification. The diagrams, selected for content and historic and aesthetic value, illustrate vertebrate, invertebrate, and plant bacterial viruses taken from English, French, and German language virological literature. The book presents this information in three sections: Overviews, including vertebrate and plant viruses Viruses with cubic and helical symmetry Viruses with binary symmetry (tailed bacteriophages).

Ward pulls from his ten years' experience as a designer and art director to tackle subjects such as design fetishists, Helvetica's neutrality, urgent briefs, as well as topics such as the validity of design education, the supposed death of print, client relationships and pitch planning. In addition, the book features contributions and insights from more than a dozen other established practitioners such as Milton Glaser, Stefan Sagmeister, Christoph Niemann and David Carson--Provided by publisher.

Becoming a Literacy Leader chronicles the work of Jennifer Allen, an elementary teacher who moved to a new school and a new job as a literacy specialist, and found herself tackling everything from teacher study groups to state-mandated assessment plans. The book is rooted in Jennifer's belief that teachers know what they need when it comes to professional development in literacy, and the best literacy leaders are those who listen to and respect the educators in their midst. Grounded in research but thoroughly practical, Jennifer shares advice on: organizing a literacy room with resources for classroom teachers, including book lists, bins of children's books tied to craft and strategy lessons, bulletin board ideas, and files with instructional materials; developing intervention classrooms for struggling readers and writers built on collaboration between teachers and literacy specialists; setting up assessment notebooks for teachers, and preparing new and veteran teachers for student assessments across grades; creating model programs for dealing with schoolwide problems like reading fluency, and then moving from the pilot to implementation in many classrooms; coaching new and veteran teachers in the latest literacy practices, without taking on the role of expert; analyzing and using books, videos and journals in professional development programs; infusing routine staff meetings with discussions of new literacy curricula; leading teacher study groups using a variety of formats; finding and budgeting money for professional development programs in literacy; protecting time and scheduling priorities, to ensure the literacy specialist position doesn't become a "catch-all" for the random needs of teachers or administrators. At a time when all administrators are urged to be literacy leaders, this insider's view helps to define what leadership looks like and shows how to create an environment that fosters professional development. Jennifer Allen shares the balance leaders struggle with, as they strive to support and honor the fine practices of teachers, even as they nudge colleagues to improve their literacy instruction. Ultimately, Becoming a Literacy Leader is a hopeful book, an optimistic and realistic portrait of life in schools among teachers committed to doing their jobs well.

A working guide to the proper methods of interacting with the full Vodou pantheon • Includes the myths, cultural heritage, and ancestral lineage of the lwa and how to honor and serve them • Provides an introduction and guide that is especially useful for the solitary practitioner • Discusses the relationship between Vodou, Haitian culture, and Catholicism In The Haitian Vodou Handbook, Kenaz Filan, an initiate of the Soci é t é la Belle Venus, presents a working guide to the proper methods of interacting with the full Vodou pantheon, explaining how to build respectful relationships with the lwa, the spirits honored in Haitian Vodou, and how to transform the fear that often surrounds the Vodou religion. Until recently, the Haitian practice of Vodou was often identified with devil worship, dark curses, and superstition. Some saw the saint images and the Catholic influences and wrote Vodou off as a "Christian aberration. " Others were appalled by the animal sacrifices and the fact that the Houngans and Mambos charge money for their services. Those who sought Vodou because they believed it could harness "evil " forces were disappointed when their efforts to gain fame, fortune, or romance failed and so abandoned their "voodoo fetishes. " Those who managed to get the attention of the lwa, often received cosmic retaliation for treating the spirits as attack dogs or genies, which only further cemented Vodou ' s stereotype as "dangerous. " Filan offers extensive background information on the featured lwa, including their mythology and ancestral lineage, as well as specific instructions on how to honor and interact fruitfully with those that make themselves accessible. This advice will be especially useful for the solitary practitioner who doesn ' t have the personal guidance of a socié t available. Filan emphasizes the importance of having a quickened mind that can read the lwa ' s desires intuitively in order to avoid establishing dogma-based relationships. This working guide to successful interaction with the full Vodou pantheon also presents the role of Vodou in Haitian culture and explores the symbiotic relationship Vodou has maintained with Catholicism.
