be accompanied by other symptoms such as sweating, feeling overheated, buzzing in the ears, partial blindness (especially feeling as if you are looking through a tunnel), nausea or vomiting.

What Causes  
Lightheadedness? -  
Verywell Health

# Access Free Persistent Light

Common reasons for lightheadedness include: Dehydration. Medication side effects. Sudden drop in blood pressure. Low blood sugar. Alcohol and many prescription and non-prescription medicines can cause lightheadedness. These problems may develop from: Taking

# Access Free Persistent Light too much of a medicine (overmedicating).

Alcohol and medicine  
interactions.

This is a practical  
manual for clinicians  
who take care of  
patients with  
concussions. The  
long-term effects of

# Access Free Persistent Light

Concussions are an increasingly recognized problem in the medical community and by the general public. Most people recover well from concussions, but a substantial minority does not. However, most clinicians do not have specific training in how to evaluate

# Access Free Persistent Light

and treat concussion patients who do not make a rapid and complete recovery.

This manual, based on the experience of the director of the concussion clinic at Washington University in St Louis, provides specific step-by-step guidance for managing a variety of problems related to

# Access Free Persistent Light

complex concussions:  
making an accurate  
diagnosis, general  
treatment strategies,  
headaches, sleep  
disruption, attention  
deficit, mood  
instability, anxiety  
and depression, post-  
traumatic stress,  
personality change,  
balance problems,  
dizziness, fatigue etc.  
Furthermore, there

# Access Free Persistent Light

are specific sections on return to work, return to driving, return to school and return to contact sports. Finally, the manual includes information on special topics, such as concussion in adolescents, children, contact sport athletes, military personnel, and

# Access Free Persistent Light

patients involved in  
medico-legal matters.

The manual is written  
for clinicians with a  
broad range of  
backgrounds:

primary care  
physicians, nurse  
practitioners,  
physician's assistants,  
athletic trainers,  
emergency medicine  
doctors, neurologists,  
neurosurgeons,

# Access Free Persistent Light

psychiatrists, and  
rehabilitation  
Manual Guide  
medicine physicians  
should all be able to  
use the manual  
effectively. There is  
information on how  
to set up a specialty  
concussion clinic, and  
an extensive list of  
internet-based  
resources related to  
concussion. A list of  
other publications is

# Access Free Persistent Light

provided to point to additional detailed information beyond what a pocket-sized 'on-the-fly' manual can provide.

In the past decade, few subjects at the intersection of medicine and sports have generated as much public interest as sports-related

# Access Free Persistent Light Concussions-

especially among youth. Despite growing awareness of sports-related concussions and campaigns to educate athletes, coaches, physicians, and parents of young athletes about concussion recognition and management,

# Access Free Persistent Light

confusion and  
controversy persist in  
many areas.

Currently, diagnosis  
is based primarily on  
the symptoms  
reported by the  
individual rather than  
on objective  
diagnostic markers,  
and there is little  
empirical evidence  
for the optimal  
degree and duration

# Access Free Persistent Light

of physical rest  
needed to promote  
recovery or the best  
timing and approach  
for returning to full

manufacturers, as  
well as youth who  
participate in sports  
and their parents - to  
improve what is  
known about

concussions and to  
reduce their  
occurrence. Sports-

# Access Free Persistent Light

Related Concussions  
in Youth finds that  
while some studies  
provide useful  
information, much  
remains unknown  
about the extent of  
concussions in youth;  
how to diagnose,  
manage, and prevent  
concussions; and the  
short- and long-term  
consequences of  
concussions as well

# Access Free Persistent Light

as repetitive head impacts that do not result in concussion symptoms. The culture of sports negatively influences athletes' self-reporting of concussion symptoms and their adherence to return-to-play guidance. Athletes, their

# Access Free Persistent Light

some cases, coaches and parents may not fully appreciate the health threats posed by concussions.

Similarly, military recruits are immersed in a culture that includes devotion to duty and service before self, and the critical nature of concussions may often go unheeded.

# Access Free Persistent Light

According to Sports-Related Concussions in Youth, if the youth sports community can adopt the belief that concussions are serious injuries and emphasize care for players with concussions until they are fully recovered, then the culture in which these athletes

Access Free  
Persistent Light  
Manual Guide  
perform and  
compete will become  
much safer.

Improving  
understanding of the  
extent, causes,  
effects, and  
prevention of sports-  
related concussions is  
vitally important for  
the health and well-  
being of youth  
athletes. The findings  
and

Access Free  
Persistent Light  
recommendations in  
this report set a  
direction for research  
to reach this goal.

This is a practical  
manual for clinicians  
who take care of
