Focus on Personal Finance is a brief, 14-chapter book, covering the critical topics in Personal Finance courses. This 4-color, paperback text is designed and written to appeal to a range of ages, life situations, and levels of financial literacy. A unique aspect of this text is its active approach. This text will not only get your students thinking about their current situation and financial goals, but also to put these in writing to use as a guide and revise over the course of their lives. The more a student involves themselves in the assessments, exercises and worksheets provided, the more they will discover about their current habits and how to improve them for greater financial freedom. Students have many different financial goals, but none are more important than having a basic understanding of financial issues and peace of mind with regard to their decisions. The ultimate goal of Focus on Personal Finance is to get students to this point as a first step to achieving the many financial goals they have set for themselves.

Personal Finance for the Real World teaches the basics of personal finance by involving the reader in various financial exercises and eventually constructing a personal financial plan. Users not only track their spending for a month, but also set personal financial goals and incorporate them into a realistic budget. This book also teaches time-value of money calculations, which enable readers to calculate their necessary monthly savings in order to reach targeted investment goals. This book conducts a thorough review of credit, complete with strategies to pay off credit card and other forms of debt. It features discussions on student debt as well, with particular attention to appropriate pay-down strategies and the financial payoffs to different academic majors. Personal Finance for the Real World immerses users in real and purposeful financial activities, while teaching personal finance vocabulary and encouraging readers to take seriously the financial side of their lives.

In 2011 the World Bank,with funding from the Bill and Melinda Gates Foundation,launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account,the unbanked;as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures,along with the questionnaire, the survey methodology, and other relevant materials,are available at www.worldbank.org/globalindex.
