**WORLD - #1 QUICK REFERENCE GUIDE Pharmacology**

Pharmacology is a difficult class in nursing school. Pharmacology is the study of how a drug works on the body, its side effects on the body, and the way the body uses the drug. Most nursing students find pharmacology a tough course because you are required to know the name, side effects, nursing interventions, and the way the body uses the drug in such a short amount of time.

**How to Study for Pharmacology in Nursing School**

Pharmacology is the branch of medicine and biology concerned with the study of drug action, where a drug can be broadly defined as any man-made, natural or endogenous substance. Pharmacy is the science and technique of preparing and dispensing the drugs studied and produced by pharmacologists.
