A basic anthology of modern Korean literature.

When historian W. Allen Salisbury first wrote this book in 1978, he was seeking to teach Americans that the battle between the American System of economics and the British System of free trade which resulted in the Civil War, was at the center of the political battles of the 20th century. Today, this is even more true. The heirs of Adam Smith and the British Empire are pressing for worldwide adoption of free trade, a system which led to slavery in the 19th century, and would do so again today. And certain U.S. political circles are even openly demanding a return to the principles and Constitution of the Confederacy. Utilizing a rich selection of primary-source documents, Salisbury reintroduces the forgotten men of the Civil War-era battle for the American System: Mathew Carey, his son and successor Henry Carey, William Kelley, William Elder, and Stephen Colwell. Together with Abraham Lincoln, they demanded industrial-technological progress, against the ideological subversion of British "free trade" economists and the British-dominated Confederacy. Salisbury highlights the career of Henry C. Carey, who, as Lincoln's leading economic adviser, acted to prevent a complete City of London banker's takeover of the United States political-economic system.

Contained between the covers of this book are messages outlining life-changing principles. They are outgrowths of the authors longing to see the hand of GOD steering his people to

the more abundant life. You will discover some principles of transformation and change for a better relationship, with GOD in Jesus Christ at best. You will, at least, be inspired to pursue GOD'S favor by a richer faith with renewed determination and fresh convictions.

Pop Showcase for Strings, for solo or string orchestra, is a collection of 13 popular songs that can be played as a solo with piano or CD accompaniment, or with a string orchestra with or without the CD or piano. Each selection is presented in two arrangements, a solo and a complete string orchestra piece. The solo section is written so that it can be played as a solo or in unison (or octaves) together by any ensemble, including the entire orchestra, with or without piano accompaniment. The arrangement for string orchestra that follows uses the same rhythms and melodic lines included in the solo section. The first song can be played after the first six notes are learned in any string method and the pieces progress to about a level two. These arrangements are excellent supplements for enhancing any student's knowledge of popular music from the 20th century and are great concert material. The comb binding creates a lay-flat book that is perfect for study and performance. From the author of the critically acclaimed *Sea Wife Praised* for her exquisite prose and crystalline insights, Amity Gaige returns with *The Folded World*, the story of an idealistic

young social worker drawn into the lives of his mentally ill clients. Charlie Shade was born into a quiet, prosperous life, but a sense of injustice dogs him. He feels destined to leave his life of “ bread and laundry, ” to work instead with people in crisis. On his way, he meets his kindred spirit in Alice, a soulful young woman, living helplessly by laws of childhood superstition. Charlie ’ s empathy with his clients—troubled souls like Hal, the high-school wrestling champion who undergoes a psychotic break, and Opal, the isolated young woman who claims “ various philosophies have confused my life ” —is both admirable and nearly fatal. An adoring husband and new father, Charlie risks his own cherished, private domestic world to help Hal, Opal, and others move beyond their haunted inner worlds into the larger world of love and connection. A collision of extraordinary characters, *The Folded World* addresses the universal dilemma of love, wherein giving to another can seem like “ the death of the world of oneself. ” With an unerring eye for both the joys and devastations of life, Amity Gaige once again reminds us of the pleasures and depths to be found in her fiction.

Also add description: Luo Guanzhong's fictionalized account of the Beizhou rebellion, led by Wang Ze. This forbidden classic, unable in China for decades, was "completed" by Feng Menglong, who added other details such as how the evil sorcerers obtained their powers through the efforts of a Fox Spirit and her two children, along with various satires of Ming corruption. Translated by Nathan Sturman. First English edition.
