Sometimes a child or teenager may not know the reasons they self-harm. For many young people, self-harm can feel like a way to cope with difficult feelings or to release tension. The physical pain of hurting themselves can feel like a distraction from the emotional pain they're struggling with. Some difficult experiences or emotions can make self-harm more likely in children:

## 7.1.16 Suicide and Self Harm Policy

self-harm (often referred to as deliberate self-harm) and self-injury are unreliable; hence this section takes a more discursive approach to the issues, with the aim of informing people about preventative measures which can also act to prevent suicide.

**SUICIDE & SELF-HARM** Lisa Bird & Alison Faulkner  
Self-harm describes any behaviour where someone causes harm to themselves, usually as a way to help cope with difficult or distressing thoughts and feelings. It most frequently takes the form of cutting, burning or non-lethal overdoses. However, it can also be any behaviour that causes injury - no matter how minor, or high-risk behaviours.
