They argue that juvenile justice should be grounded in the best available psychological science, which shows that adolescence is a distinctive state of cognitive and emotional development. Although adolescents are not children, they are also not fully responsible adults. Elizabeth Scott and Laurence Steinberg outline a new developmental model of juvenile justice that recognizes adolescents' immaturity but also holds them accountable.

Rethinking the Role of the Juvenile Justice System 11 professionals and related service providers involved were not focused on . trying to improve attendance for all diverted youth and youth placed on probation, but only for those youth for whom school attendance was identified .

Rethinking the Role of the Juvenile Justice System

The developmental model of juvenile justice that we propose in this book treats adolescents involved in crime as a separate legal category, distinct from children and adults. Our approach is compatible with that of developmental psychologists, who view adolescence as a discrete stage that bridges childhood and adulthood.
