Our kids, this life, this MC...it's all wrong. I don't belong. The problem is, I can't remember anything. If this really is my life, it's no wonder I want to forget. Did I mention someone is trying to kill me, and Boone is the one person standing between me and a fiery death? Boone Richards What started out as a way to get even has turned into so much more. I want to touch her. Taste her. Own her. I want to make Olympia mine. If I do, and she remembers, things are gonna go from bad to worse. The club is my life, my brothers are my family. I can't afford to be sidetracked by a woman, but it's hard not be distracted with her looking like that, talking like that, and shaking her sweet ass like that. What I do know: taking Olympia has changed everything, including me. Protecting her from a murdering arsonist has become my obsession. I'll destroy anyone who tries to hurt her. Please be advised: The entire Scorched Souls Series is for readers 18 and older due to sexual content, violence, language, and dark subject matters. You have been warned. There are BDSM elements in all four books.

Once upon a time the world burned. Until a girl and her dragon smothered the flame. But the spark that ignited the apocalypse never went out. And the scorch is about to begin... When Team Dragon rescues Emmy from the government lab, they think the future is finally safe. But they soon discover that Emmy has a secret—a secret so dangerous it could trigger the very apocalypse Connor and Caleb were sent back in time to prevent. As a dragon hunter, Connor has committed his life to saving the world. There's nothing he wouldn't do to complete his mission...even if it meant betraying his brother and losing Trinity's heart. Even if it meant doing the unthinkable. But a desperate choice meant to prevent The Scorch, may be the spark that sets the world aflame once more. The epic conclusion to the genre-bending Scorched series, which Melissa de la Cruz, New York Times bestselling author of the Blue Bloods series, called "A heart-pounding, twisty, time-travel fantasy."

the bitter history of their mother, other characters come into the story witnesses or key players able to assist in the investigation. Carried aloft by poetic language, the inquiry pursued by Janine and Simon unfolds in a dreamlike atmosphere that cultivates the mystery surrounding a knife thrust into the heart of childhood.

This Scorched Earth is an amazing tour de force depicting a family's journey from near-devastation in the Civil War to their rebirth in the American West, from New York Times bestselling author William Gear. The Civil War tore at the very roots of our nation and destroyed most of a generation. In rural Arkansas, the Hancocks were devastated by that war. They not only lost everything, but experienced an unimaginable hell. How does a traumatized human being put themselves back together? Where does a person begin to heal his or her broken mind...and does one choose damnation or redemption? For the Hancock siblings: Doc, Sarah, Butler, and Billy, the American frontier becomes a metaphor for the wilderness within—raw, and capable of being shaped. Self-salvation, however, always comes with a price. Their journey is a testament to the power of love...and the American spirit. This is their story. And ours. To effect just outcomes the justice system requires that law enforcement officers, prosecutors, and judges be committed—above all—to doing justice. Those whose allegiance is to winning, regardless of evidence, do the opposite of justice: they corrupt the system. This is the jaw-dropping story of one such corruption and its surprise ending. On Labor Day 2007, a forest fire broke out in California's eastern Sierra Nevada and eventually burned about 65,000 acres. Investigators from the California Department of Forestry and Fire Protection and the United States Forest Service took a mere two days to conclude that the liable party was the successful forest-products company Sierra Pacific Industries (SPI),

founded as a tiny sawmill nearly sixty years earlier by Red Emmerson. The investigative report on the fire declared that SPI's independent logging contractor had started the conflagration by driving a bulldozer over a rock, creating a spark that flew into a pile of brush. No fire had ever been proven to start that way, but based on the report the U.S. Department of Justice and California's attorney general filed nearly identical suits against Emmerson's company. The amount sought was nearly a billion dollars, enough to bankrupt or severely damage it. Emmerson, of course, fought back. Week by week, month by month, year by year, his lawyers discovered that the investigators had falsified evidence, lied under oath, fabricated science, invented a narrative, and intentionally ignored a mountain of exculpatory evidence. They never pursued a known arsonist who was in the area that day, nor a young man who repeatedly volunteered alibis contradicted by facts. Though the government lawyers had not known at the start that the investigation was tainted, they nonetheless refused to drop the suits as the discovery process continued and dozens of revelations made clear that any verdict against Emmerson's company would be unjust. *Scorched Worth* is a riveting tale that dramatizes how fragile and arbitrary justice can be when those empowered to act in the name of the people are more loyal to the bureaucracies that employ them than to the people they're supposed to serve. It's also the story of a man who refused to let the government take from him what he'd spent a lifetime earning.
