Wireless Alarms. Wireless DIY alarm systems are simpler to install than hard wired systems as there's no cables to run under floorboards, carpets or surface clip along walls. Wireless alarm systems in the UK operate in the 433MHz or 868MHz frequency band, however if you want to conform to European Systems Standard EN 50131-1 (or the British equivalent PD6662) you will need to opt for a 868MHz system.

Best smart home security systems: features to look for. We asked a security expert to assess a selection of the latest smart home security systems and recommend what to look for when choosing one. Outdoor siren or dummy siren * these help to deter burglars from outside. Reformed criminals have told us that burglars will actively avoid properties they know have alarm systems * either an outdoor siren or a dummy siren, so look for kits that include one, as not all do.
