Becoming Pluralcombines a warm appreciation of the Sudanese people with an astute sense of the circumstances under which they live. The author documents in candid portraits the Sudanese at grass roots level, and records their hopes and fears as Sudan formally breaks into two separate states. "In July 2011, Sudan officially 'became plural' as the country split in two; the unofficial northsouth divide between the Arab-dominated north and the more ethnically African south was formalized, after the people of Southern Sudan voted overwhelmingly to separate from the rest of the country. Richard Boggs lived and worked among the Sudanese for many years, first coming to Sudan as a volunteer in 1986. He has lived in both Juba and Khartoum, and shared the reality of life in Sudan with the people around him. This has enabled him to provide an intimate portrait of the characteristics and values of the Sudanese people. He conveys astutely the particular circumstances in which they live, creating a record of their hopes and fears as Sudan formally breaks into two separate states. Written during a key moment in Sudanese history, as South Sudan gained its independence in July 2011, this unique portrait contains over 100 never-before-published photographs. It brings Sudanese cultures and traditions to a Western audience.

"Do what you can to help your children's imaginations to grow and flourish - encourage activities which feed their imaginations" ~ Sir Ken Robinson, 2008.This quotation inspired the authors to think about sharing their life-long collection of tried and true creativity activities and resources. Their engaging and provoking book, The Creativity Crusade, is a result of these efforts. It provides the strategies and mindsets needed to nurture and protect children's creativity! The book begins with questions for parents to ponder: " What are the most important elements that should be included in your child's education to prepare them for the future?" " How much longer can America hold on to its innovative status with the testing culture that currently exists in our classrooms?" " What role can you, as a parent, play in nurturing and supporting your child's creativity? The authors provide innovative - practical - researched-based - suggestions from both their classroom and parenting experiences. Rest assured, the activities, methods and tools presented in this book will give you the confidence and knowledge to start making a difference in how your children experience life, learning and happiness. And finally, the authors invite you to join their Creativity Crusade for every child, every parent, every grandparent, every home, EVERY DAY!"This book is refreshing. I know schools cannot be expected to take charge of fostering creativity in children and teenagers anytime soon. Parents own this responsibility. This whole idea intrigues me. I'm reading this with a highlighter and sticky notes." ~ Robby Champion, Champion ConsultingLooking forward to using this innovative and informative book in my private practice.
