Pianist George Shearing is that rare thing, a European jazz musician who became a household name in the US, as a result of the "Shearing sound"—the recordings of his historic late 1940s quintet. Together with his unique "locked hands" approach to playing the piano, Shearing's quintet with guitar and vibraphone in close harmony to his own playing revolutionized small group jazz, and ensured that after seven years as Melody Maker's top British pianist, he achieved even greater success in America. His compositions have been recorded by everyone from Sarah Vaughan to Miles Davis, and his best known pieces include "Lullaby of Birdland", "She" and "Conception". His story is all the more remarkable because Shearing was born blind. His candid reminiscences include a behind

researchers, teachers, and authors Roy Baumeister and Brad Bushman give students integrated and accessible insight into the ways that nature, the social environment, and culture interact to influence social behavior. While giving essential insight to the power of situations, the text's contemporary approach also emphasizes the role of human nature -- viewing people as highly complex, exquisitely designed, and variously inclined cultural animals who respond to myriad situations. With strong visual appeal, an engaging writing style, and the best of classic and current research, **SOCIAL PSYCHOLOGY AND HUMAN NATURE** helps students make sense of the sometimes baffling -- but always interesting -- diversity of human behavior. Hubbard & O'Brien keeps it real in the third edition with updated examples, data, and end-of-chapter problems, providing the most up-to-date discussion on the recession/financial crisis and the monetary and fiscal policy response. Hubbard & O'Brien is the only book that motivates students to learn economics through real business examples. Traditional jazz studies have tended to see jazz in purely musical terms, as a series of changes in rhythm, tonality, and harmony, or as a parade of great players. But jazz has also entered the cultural mix through its significant impact on novelists, filmmakers,

dancers, painters, biographers, and photographers. Representing Jazz explores the "other" history of jazz created by these artists, a history that tells us as much about the meaning of the music as do the many books that narrate the lives of musicians or describe their recordings. Krin Gabbard has gathered essays by distinguished writers from a variety of fields. They provide engaging analyses of films such as Round Midnight, Bird, Mo' Better Blues, Cabin in the Sky, and Jammin' the Blues; the writings of Eudora Welty and Dorothy Baker; the careers of the great lindy hoppers of the 1930s and 1940s; Mura Dehn's extraordinary documentary on jazz dance; the jazz photography of William Claxton; painters of the New York School; the traditions of jazz autobiography; and

the art of "vocalese." The contributors to this volume assess the influence of extramusical sources on our knowledge of jazz and suggest that the living contexts of the music must be considered if a more sophisticated jazz scholarship is ever to evolve.

Transcending the familiar patterns of jazz history and criticism, *Representing Jazz* looks at how the music actually has been heard and felt at different levels of American culture. With its companion anthology, *Jazz Among the Discourses*, this volume will enrich and transform the literature of jazz studies. Its provocative essays will interest both aficionados and potential jazz fans. Contributors. Karen Backstein, Leland H. Chambers, Robert P. Crease, Krin Gabbard, Frederick Garber, Barry K.
