NATURE OF MATTER PPT AND WORKSHEET | Teaching Resources

Test your students' knowledge of the three states of matter and their properties with these differentiated particulate nature of matter worksheets. With two versions available for higher and lower ability learners, you can decide which level of questions are suitable for your students. Choose from cloze activities, match-up and longer answer questions to really test their understanding and help them build their KS3 Chemistry confidence.

Particulate Nature of Matter Worksheets | Beyond

The purpose of this activity is to recap students' current knowledge and understanding of the three states of matter and the names of the processes involved when substances change states. C1a.2 The kinetic particle theory This activity introduces the particulate models of solids, liquids and gases.

C1a The particulate nature of matter

Lesson Summary Atoms The atom is the basic unit of matter, made up of three subatomic particles. Protons have a positive charge and neutrons carry no charge. Strong forces bind protons and neutrons together in the nucleus. An electron is a negatively charged particle that has only about $1/1840$ the mass of a proton.

Compressibility: Compressibility is the effect of pressure on a substance.

The Particulate Nature Of Matter - TeachifyMe

So, a matter is anything that occupies space and has mass. All the buildings, the bridges, the atomic particles are all matter. Even our DNA, the air, the molecules inside our bodies, everything is matter. We know that matter comprises of particles. These particles are atoms and molecules. In this section, we will cover the nature of matter.

Nature of Matter: What is Matter? Properties, Concepts ...

Some of the worksheets for this concept are Chapter 2 the nature of matter, Section 21 the nature of matter, Name date class states of matter 13, Phases of matter multiple choice quiz, Chapter 1 matter and energy, Name class date the nature of matter, Chapter 1 earth as a system chapter 2 the nature of, Glencoe physical science.

The Nature Of Matter Chapter 2 Worksheets - Kiddy Math

Mass is the amount of matter in an object. Volume – a measure of the size of a body or region in two-dimensional spaces. Inertia – the tendency of an object to resist being moved or, if the object is moving, to resist a change in speed or direction until an outside force acts on the object. Weight is the gravitational force acting on a body.
