The Power of Habit

To save energy, the brain creates a habit loop that looks for a trigger to cue a behavior. To form a habit loop, the brain first looks for a cue, a trigger that tells your brain when to begin the next element, the routine. Of course, this routine won't stick without a reward, which reinforces to your brain that the habit loop is worth it.

PLEASE NOTE: This is a summary of the book and NOT the original book. Summary of The Power of Habit by Charles Duhigg Preview: The Power of Habit by Charles Duhigg is a thorough examination of several case studies about how habit formation and habit change impact daily life. It details the experiences of individuals, corporations, and organizations to illustrate how habits are made and why, how they can be changed, how habits of all kinds are used in businesses to attract customers or manage employees, and the devastating results of a poorly managed habit. Several studies of individuals with unusual habits or habit changes explain the neurological mechanisms that form habits in the brain. The habit, stored in the basal ganglia for neural efficiency, is the result of a loop comprised of three parts. These parts are a cue that triggers the habit loop, a routine to execute, and feedback, or a reward, that tells the brain to remember the habit for the future. Habits can be changed by retaining the cue and reward...
