But after reading "The Speed Traders: An Insider's Look at the New High-Frequency Phenomenon That Is Transforming the Investing World" (McGraw-Hill, 2011), authored by Edgar Perez, I was able to grasp the concepts behind it, since the book explain this technique in understandable words.

Amazon.com: Customer reviews: The Speed Traders: An—

Any executive, high-level manager, or beneficiary who owns more than 10% of a company ' s voting stock is considered an insider by the SEC when it comes to insider buying and selling. However, with respect to illegal insider trading, the SEC ' s definition of who is an insider is relatively broad — it expands to include any employee with knowledge of important non-public company activity and anyone not associated with the company who receives a tip about future activity from an insider.

Is the U.S. stock market rigged?—CBS News

High-speed trading is coming under increased scrutiny as a close cousin to insider trading. While insider trading cases typically involve Wall Street honchos receiving confidential tips, critics say high-frequency trading also gives insiders an unfair advantage because they work out deals with exchanges to receive proprietary data feeds at a faster pace than is available to the general public.
