Analogies are also a key component of many assessment and ability tests. Think Analogies® A1 begins with an exploration of word relationships. Students classify word groups and form pairs of related items, and then identify types of analogous relationships and classify them. Finally, they select and supply words and word pairs to complete analogies.

Today we think of archives as cultural – and public – statements about the past; however, the muniments chamber at Thornbury was deeply personal and individualistic in nature. Indeed, the records within the chamber were oftentimes personal with the names of tenants, the amount of rent owed, and their geographical location; it was essentially their personal data.
