THE CARL MOYER PROGRAM - California Air Resources Board

The state of California Department of Public Health's Environmental Health Laboratory Branch contains the first state-level Indoor Air Quality (IAQ) program in the nation. Our mission is to identify and study public health problems related to indoor environments, support the development of solutions to those problems, and ultimately promote healthy indoor environments in California.

California Air V4

VIP Overview: The VIP is a streamlined approach to reduce emissions by replacing old, high-polluting vehicles with newer, lower-emission vehicles. This program is limited to owners/operators with fleets of 10 or fewer vehicles that have been operating at least 75% (mileage-based) in California during the previous twenty four (24) months. The goal of this program is to reduce emissions from in-use heavy-duty trucks in small fleets by replacing Engine Model Years 2009 and older with Engine ...
