Waste and Want by Susan Strasser is about a nexus which unites a broader story of economic transformation - Strasser's subject is trash. Defining trash conceptually as something which is out of place and unusable to us Strasser uses it as the lynchpin of an examination of the journey of American society from largely self-sufficient colonial agriculture to modern consumer culture.

Strasser charts the triumph of "disposable" goods - paper cups, toilet paper, packaged food - those signature products of modern life. And she shows how Americans became hooked on convenience, fashion, and constant technological change - as the mountains of garbage rose higher and higher."--Jacket.
